ABOUT US

Laxmi Steels is Nepal's largest steel manufacturing company and one of the best steel companies in Nepal which was founded in 2008. Laxmi Steels is one of the business verticals of Saurabh Group. Laxmi Steels, a well-known manufacturer of TMT bars in the country of Nepal, Laxmi Steel's TMT rebars come with a series of inherent advantages like consistent quality along with uniform grades, dimensions and tolerances. It also comes with superior stability, properties for higher durability and easy workability. Based on our core beliefs, we strive to build long-term relationships with all of our clients. Laxmi Steels is also one of the leading producers of steel in Nepal. We have the capacity to produce 800 metric tons of steels daily.

Laxmi Steels Ltd. was founded in Lumbini zone, Khairani, Sunwal -7 in Nawalparasi district. It was established to produce TMT steel bars and other steel products utilizing German Thermex technology.

MANUFACTURING PROCESS:

The products manufactured at Laxmi Steels are made from pure prime billets which make it strong structure and also the martensite in the upper layer and ferrite in the inner layer makes the product strong and durable. Because of the quality of the billets used, the rods are flexible and more resistant to damage in bending or twisting. It is also extremely durable than any other steel which also helps the constructions to last long and the improved ribs design gives it strong hold over concrete and also the low carbon in the steel makes the task of welding easy and strong. The steel products that are deterioration resistant also come in uniform size and weight and are earthquake tolerant as well as fire resistance.

Manufactured by TMT technology, Laxmi Steels uses German Thermex technology which is considered to be the best in the world. The process of creating the steel involves on-line Thermo Mechanical Treatment in the three stages that are Quenching, Self-tempering and Atmospheric cooling.

The hot steel rod, after the final rolling process, is passed through a water-cooling chamber which causes the formation of high strength tempered martensite structure on the surface and an austenitic structure at the core.

PRODUCTS:

1. Fe 500 (8 mm, 10 mm, 12 mm, 16 mm, 20 mm, 25 mm, 28 mm, 32 mm)
2. Fe 500D (8 mm, 10 mm, 12 mm, 16 mm, 20 mm, 25 mm, 28 mm, 32 mm)
3. Ribbed Wire 4.75 mm
4. Binding Wire

COMPANIES IN SAURABH GROUP

PROJECT SUPPLY

KEC INTERNATIONAL LIMITED

- Tamakoshi-Kathmandu 400 KV Transmission Line
- Bharatpur-Hetauda 220 KV Transmission Line
- Diding-Dhalkebar-Bathnaha 400 KV Transmission line
Associate with Arun-3 HEP

SHARMA AND COMPANY PVT. LTD.

- Lumbini Province Capital Construction Project
- Bir Hospital Surgical Block
- Mediciti Hospital

ROSHAN CONSTRUCTION PVT. LTD.

- National Police Academy, Panauti, Kavrepalanchowk
- Chandi Khola Bridge, Rautahat
- Norvic Hospital, Kathmandu

MOUNTAIN INFRA COMPANY LIMITED

- Office of the Prime Minister and Council of Ministers in Singh Durbar.
- Kulekhani First Hydropower Station, Bhimphe-6, Makawanpur
- Rastriya Banijya Bank, Asset Management Department, Singhadurbar, Plaza

TATA PROJECT LIMITED

- Underground Distribution Network under Lagankhel, Pulchowk and Bhaktapur
- Marsyangdi-Kathmandu 220 K.V. Transmission Line

RAMAN CONSTRUCTION PVT. LTD.

- Bheri Babai Diversion Multipurpose Project
- Historic Dharahara Tower Reconstruction

K.S. CONSTRUCTION PVT. LTD.

- Sikta Irrigation Project-Nepalgunj
- Geta Medical College
- Chaudhar Bridge- Kanchanpur
- Ranijamara Irrigation Project-Tikapur, Kailali
- Mohana Irrigation Project-Kailali

SAGUN CONSTRUCTION AND ENGINEERING PVT. LTD.

- Nagdhunga-Naubise-Mugling (NNM) Road
- City Hall, Bharatpur, Chitwan
- Various RCC Bridge projects of Nepal
